# ENGINEERING 2010-ARGENTINA: Technology, Innovation and Production for Sustainable Development

---

**Place:** Buenos Aires, Argentina

**Date:** 17-20 October 2010

This world congress will be an excellent opportunity to strengthen ties among engineers and productive forces and their countries around the world, under the sponsorship of WFEO. The world congress expects to welcome more than 5000 representatives of engineering associations, consultancy groups, the business, productive and industrial sectors, research institutions, academies and governmental authorities to debate engineering and its contributions to society.
